#### News of the Week.

Beane, the conductor of the coal train on the Chicago and Alton railroad, whose carelessness caused the accident at Lemont, in which so many lives were lost, has been arrested.

A committee of the citizens of Newburg, have undertaken the necessary repairs on Washington's headquarters, in that city. The expense is to be defrayed by private subscription. The War Department promises co-operation and Secretary Belnap has promised thirty cannon for ornamenting the grounds.

An examination of the books of the Brooklyn Trust Company and of the treasurer's office of the city of Brooklyn, reveals the fact that Assistant Treasurer Rodman is a defaulter to the city to the amount of \$203,000 of this amount \$55. 900 has been replaced by Treasure Sprague, and his bondsmen are making up the balance. Treasurer Sprague has made an assignment to the city of all of his property, even his household furniture. It is alleged great frauds have been perpetrated by the ring, and restitution is made for the purpose of covering them. During the past three months, French

railroads have sold 360,000 tickets to pilgrims. Considerable excitement has been occasioned at Vienna by the refusal of an English firm to accept the medal of merit

awarded by the judges. The late storm on the coast of Nova Scotia was the most destructive ever known in that vicinity. Houses were blown down, fences prostrated, fruit trees and crops destroyed. The wharfes were damaged to the amount of \$100,000, and one hundred vessels of all descriptions were driven ashore. The amount of damage done to crops, etc., can not be estimated.

A Republican State Convention will be held in the city of Utica, on Wednesday, the 24th day of September next. Advices from Dover, New Hampshire, state that the Hon. John P. Hale is sinking rapidly.

Admiral Yelverton, in command of the British squadron at Cartagena, has notified the insurgents of his intention to move the Vittoria and Almanza to Gibraltar. The insurgents have decided to fire on the British fleet if the ships are moved.

The London Times of Friday morning in a leading article, says that England has lost the iron trade of the United States, and that the United States is competing successfully for the iron trade Canada, South America and the West Indies. The Times says much of the blame for this loss should fall on strikes and trades' unions.

The State committee appointed by the in June last, has been permanently organized by appointing Rev Samuel Mc-Kean, of Albany, chairman, and H. Bronson, of Amsterdam, secretary. A State convention, to be composed of five delegates from each Assembly district, will be held in October.

The United States Treasurer has directed the Assistant Treasurer at New York to sell \$6,000,000 of gold and purchase \$500,000 in bonds during the month of September.

It is stated that all members of the new House of Representatives, who have drawn pay, have, with one exception, drawn pay at the increased rate. The exceptional member drew pay at the old

On Saturday a bold attempt was made to swindle a broker in Wall street, by the means of forged New York Central seven per cent. bonds of 1876. Since the attempt, attention has been called to this class of securities. It is reported that a bank in Wall street has \$500,000. Forged bonds of this description to the, amount of \$92,000 have been discovered in the hands of different individuals. The person who attempted the swindle gave his name as Williamson, and is said to be an alias of H. H. Williams. It is thought by detectives that a large number of these forged bonds have been negotiated. Great excitement prevails in Wall street, and a general examination of securities

will be made immediately.
Officers of the Indian Bureau, who have recently returned from the Indian country, are of the opinion that a powerful effort will be made next winter to open the Indian Territory to the railroads. The recent conflicts in the Indian country have not served to convince the railroads of the disfavor with which a considerable number of the tribes regard the proposition. If the present treaties were abrogated, 23,000,000 acres of some of the finest lands on the continent would be opened to the railroads.

A telegram from the United States attorney at Louisville, Ky., says the report of the Ku-Klux outrages in Kentucky has been forwarded, and that what has been published is true; that they are even worse than reported.

On Friday Gen. Cambos summoned the Carthagena insurgents to surrender. They answered by hoisting the black flag

on their works. The public debt has been decreased

\$6,752,820.29 during the past month. The Indian Bureau, although it has diligently inquired, has received no information relative to the reported Fort Sill massacre. So far there is not even

a probability to strenthen the rumor. A government official in high position whose long experience as a banker and merchant enables him to speak with some degree of certainty, said lately, in regard to the frequency of fines originating in business portions of cities, that such disasters had invariably preceded every financial revulsion for the last thirty years. The only explanation given was years. The only explanation given was that business firms embarrassed find that Flour and Feed incendiarism is the easiest way of concealing their financial complications, while it gave them the amount of insurance for

The committee appointed to investigate the Wawasset disaster have made public their report. They have revoked the license of Nash, engineer; they blamed the Company for employing unlicensed officers and for carrying more passengers than allowed by law. The report calls on the proper officers to proceed against the Steamboat Company with a view of imposing the penalties allowed by law.

THE MOST UNHAPPY PERSON-in the world is the Dyspeptic. Everything looks dark and gloomy; he feels "out or sorts" with himself and everybody else Life is a burden to him. This can all be changed by taking Peruvian Syrup (a protoxide of iron). Cases of 27 year's standing have been cured by it.

Former Chief Justice George W. Woodward:

I find "Hoofland's German Bitters" is a good tonic, useful in the diseases of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system. Hon. Chief Justice James Thompson: I consider "Hoofland's German Bitters" a valuable medicine in case of atttacks of indigestion or dyspepsia. I can certify this from my experience of it. It can certify this from my experience of it. I can certify this from my experience of it. Hon. Justice George Sharswood: I have found by experience that "Hoofland's German Bitters" is a very good tonic, relieving dyspeptic symptoms almost directly. They are not alcoholic. They are sold by all Druggists.

The Remington Family Sew ing Machine.

### Reasons Why

The Remington Family Sewing Machines ARE SUPERIOR TO

ALL OTHERS 1st.—Their SIMPLICITY—The use of them

is very easily acquired, and any girl of or-dinary intelligence is capable of keeping them in order. 2nd.—The CONSTRUCTION of the machine is such that it may be run at a higher rate of speed than any shuttle machine now in the market. In factories where the speed has been registered, over 1000 stitches per minute have been attained with ease.

3rd.—Their DURABILITY—Being so strong in all their parts, and fitted with great mechanical nicety, and being free from the harsh jarring movements, and friction, so common in inferior machines, they will wear a long time without repair of any kind. 4th.—Their ADAPTABILITY—By a simple change of the needle and thread, they will sew the finest cambric or the heaviest leather. All the various kinds of; boots and shoes health in the cambridge of the state of the

buckskin sewing, clothing, caps, stays, shirts, mantles and dressmaking can be done with equal facility.

5th—The SHUTTLE—Being large, it will carry a great quantity of thread—thus saving, in a great measure, the trouble of filling the bobbins.

th.—The means of getting at the required TEN-SION on the Threads is so simple and com-plete, that even backstitch on BOTH SIDES of the material [which will not rip or ravel] can be readily obtained. 7th.—They will Sew with equal facility

Silk, Twist, Linen Thread and common Spool Cotton. 8th—The have no rotary cams, cog-wheels or lever arms to make a noise, run hard or to

get out of order. By the new and peculiar movement of needle and shuttle and thread controlling parts, there is less wear or strain of the thread used; the thread being set in the material uninjured, the work is therefore better and stronger than that done on many other machines,

#### The Excursion.

As before announced, the Huntington Guards made an excursion to Frenchman's Island, on Thursday of last week, informed that many of the old shingles Lewis, a resident of the place, has been going from this place by way of the were good yet. The south roof was detained to show his jewelry. Oswego and Rome Railroad to Pulaski, thence on the Syracuse Northern to Reawarton, where they embarked for the 27 half acre lots surveyed on his farm, and the worse he behaves, the more money cars were loaded. The day was delightful and the soldiers and their friends in a a mood to enjoy it. Although in uniform, armed and equipped, the warrior were for the time only genial, happy men. At Brewerton a salute was fired, and as they marched through the street, an imposing pageant that everybody came to the doors and windows to see, the Band rewarded the interest shown by the Brewertonians with their sweetest

The ride upon the lake was most delightful-the water sparkled in the sunshine, the scenery along the shores was enchanting; on board were sunny faces, mirth and music. A bountiful dinner on the Island answered another demand which is always put in, no matter how much else there is to enjoy. There was the dress parade, rambling and rest, and we venture to say that when the party left for home there was in each heart the hope of spending another day on this beautiful island in some future sunny time. The party from this place arrived home on the last train, tired but in good spirits. Long live the Huntington Guards and may they take many more excursions as delightful as that of Thursday last to Frenchman's Island.

SUDDEN JLLNESS AT A PICNIC .- On Thursday the people of Palermo assembled in East Palermo for a Sunday-school pienic. Mr. S. R. Smith, Supervisor of the town, was elected presiding officer. While officiating in that capacity, he was suddenly prostrated upon the stage, and it was supposed had died from apoplexy or heart disease. The excitement, of course, was intense. Proper restorative measures were taken, and Mr. Smith was much better before he was removed from the grounds. He had been in his usual health up to this occurrence, except that he was not feeling very well the night before. When our informant came from that town he was out of danger. Mr. Smith is one of the leading men of the town, and the report of this occurrence excited the sympathy of the whole community .- Oswego Times.

#### A Valuable Work on the West.

"The Undeveloped West; or, Five Years in the Territories." Being a Cemplete History of that vast region between the Mississippi and Pacific; its Resources, Climate, Inhabitants, Natural Curiosities. etc., with Life and Adventures on Prairies, Mountains, and the Pacific Coast. By the aid of these perfect lenses. We ex-

of "Life in Utah," etc. Published by the National Publishing Co., of Phila-The most attractive, as well as the most remarkable portion of our country, that which lies west of the Mississippi. It is attractive to the emigrant, because

it is to that region that the he looks for a home; to the student of nature, because of the stupendous marvels of creation in which it abounds; to the capitalist, because of its wonderful capacity for producing wealth. It is a land of grandeur. beauty and romance.

Mr. Beadle spent five years in the Great West, for the especial purpose of exploring the country. Setting out on foot, he traversed the States of Iowa, Minnasota, Nebraska, Kansas and Texas, as well as Dekotah and Indian Territory visiting in person all that was worth seeing; examining the lands, living and conversing with the people, and gaining for himself a fund of information, based hardware store at Pulaski, on Thursday upon his own observations and discoveries, more extensive than one man in a llion can obtain.

He explored the various routes of the Great Pacific Railways, and spent months with the Indians, both friendly and hostile, studying their character and habits. He allowed no personal peril to deter him from the execution of his plan. Thousands of lonely miles were traversed by him, and he endured fatigue, hunger and many dangers, that he might make known the true character of the land and people in which and among whom his wanderings were made.

The book is full of information and facts of the greatest importance, such as could be obtained only by going after them as this indefatigable explorer did.

These new States and Territories contain incomparably the grandest scenery in the world, and some of the richest resources of the American Continent. Probably no other man has ever journeyed so extensively among them as Mr. Beadlecertainly no one so competent to describe what he has seen.

All sorts of people figure in this work, for it is a brilliant picture of life and manners in the Great West. The hardy frontier farmer; the wary hunter and trapper; the reckless miner; the cruel and degraded savage; the hard-working "Heathen Chinee;" the "much married" Mormon; the strange remnants of the once-powerful Aztec race—all these figure with the naturalness of life in this remark-

It is emphatically the greatest book of the day, and cannot fail-of attaining an immense circulation. We heartily reommend it to our readers.

TO THE PUBLIC: THE PAIN-KILLER manufactured by PERRY DAVIS & SON has won for itself a reputation unsurpassed in medicinal preparations. The universality of the demand for the Pain-Killer is a novel, interesting, and surprising feature in the history of this medicine. The Pain-Killer is now regularly sold in large and steadily increasing quantities, not only to general agents in every State and Territory of the Union, and every Province in British America. but Buenos Ayres, Brazil, Uraguay, Peru Chili, and other South American States, to the Sandwich Islands, to Cuba and other West India Islands; to England and Continental Europe to Mozambique, Madagascar, Zanzibar, and other African lands; to Australia and Calcutta, Rangoon and other places in India. It has also een sent to China, and we doubt if there is any foreign port or any inland city in Africa or Asla which is frequented by American and European

missionaries, travelers or traders, into which the

Pain-Killer has not been introduced.

The extent of its usefulness is another great feature of this remarkable medicine. It is not only the best thing ever known, as everybody will confess, for bruises, cuts, burns, &c., but for dysentery or cholera, or any sort of bowel complaint, it is a remedy unsurpassed for effieiency and rapidity of action. In the great cities of British India and the West India Islands and other hot climates, it has become the standard medicine for all such complaints, as well as dyspepsia, liver complaint, and other kindred disorders. For coughs and colds, canker, asthma, and rheumatic difficulties, it has been proved by the most abundant and convinc ing trials and testimony, to be an invaluable medicine. The proprietors are in possession of letters from persons of the highest character and responsibility, testifying in unequivocal terms to the cures effected and the satisfactory results produced, in an endless variety of case by the use of this great medicine. That the Pain-Killer is deserving of all its proprietors claim for it is amply proved by the unparalleled popularity it has attained. It is a sure and effect tive remedy. It is sold in almost every country in the world, and is becoming more and more popular every year. Its healing properties have been fully tested all over the world, and it need only to be known to be prized. Sold by all Druggists.

PARISH. Since the Baptist church was erected at Colosse in 1824, it has been repaired some half a dozen times. The present repairs are mostly confined to the inside. The inside of the house is taken out, and middle floor is placed nearly midway between the lower floor and the upper ceiling. The height between joints of the lower story is about eight feet, the upper story twelve feet. On the upper floor is the audience room. There are two pairs of wide stairs leading thereto. Between the stairs is the place for the singers on a elevated platform. The pulpit is in the back part of the house. On the lower floor are three rooms, one for festivals, donations, etc. one for church meetings, and one small room that can be used for a cook room if necessary. All three of the rooms can be used at the same time. There are vestibules on both floors. The north roof of the church is shingled anew. This is the first time it has been shingled

confer the greater glory !"

Towards evening the vast crowd asembled at the place appointed, to witness the hostile meeting, and so great was the popular recklessness as to affairs of that sort, that numerous and considerable sums were wagered on the result. At length the red orb of the summer sup touched the curved rim of the western horizon, covering it all with crimson and and gold, and filling the air with a flood of burning glory; and then the two mortal antagonists, armed with long, ponderous rifles, took their stations back to back, and at the preconcerted signalthe wave of a white handkerchief-walked slowly in opposite directions, counting their steps until each had measured fifty They both completed the given number about the same instant, and then they wheeled, each to aim and fire when enough for the beholders to flash their eyes from one to the other, and mark the striking contrast betwixt them. The face of Col. Morton was calm and smiling, but the smile it bore had a mostmurderous meaning. On the contrary, the countenance of Deaf Smith was stern other in smoke tinted leather. But that made no difference in Texas then; for dered peers—the class of raced none but cowards.

Presently two rifles exploded with multaneous rears. Colonel Morton gave a prodigious bound upward, and ropped to the earth a corpse. Deaf Smith stood erectand immediately began | 1873. shed his brief task, he hastened away into the adjacent forest.

The history of the hero of the foreoing anecdote was one of the most exraordinary ever known in the West. He made his advent in Texas at an early period, and continued to reside there until his death, which happened some 25 years ago; but although he had many varm personal friends, no one could ever ascertain either the land of his birth, or a single gleam of his previous biography When he was questioned on the subject he laid his finger on his lip; and if ressed more urgently, his brow wrinkled, nd his dark eye seemed to shoot sparks of livid fire! He could write with astonshing correctness and facility, considering his situation; and although denied the exquisite pleasure and priceless advantage of the sense of hearing, nature had given him ample compensation in an eye quick and far-seeing as an eagle's, and a smell as keen and incredible as jects moving miles away on the far-off prairie, when others could perceive nothing but earth and sky; and the rangers used to declare that he could rangers used to declare that he could Fulton 10.47; Arrives at Oswego at 11.15 p m. catch the scent of a Mexican or Indian at as great a distance as a buzzard could so well for a spy, in which capacity he rendered invaluable services to Houston's army during the War of Independence. He could never be persuaded to sleep under the roof of a house, or even to use a tent-cloth. Wrapped in his blanket, he loved to lie out in the open air, under the blue canopy of pure ether, and count the stars, or gaze with a yearnng look at the melanchely moon.
